

**Course Project – Peer Review Comment Form (20 points)**

**Assigned:** April 19, 2018

**Due:** April 23, 2018

**Introduction**

Read all the course project report documents from the other 6 groups, then write a comment for every statement below. You must provide meaningful commentary in order to earn credit for this task. All the group report documents are located in NYU Classes -> Special Topic: Practical Computer Security -> Syllabus.

Project Title:

	Comments or Suggestions for Improvement
Has the problem statement been formulated <b>clearly</b> ? Has the need of the proposed solution been justified clearly?	
To what extent does the solution represent significant improvements over existing ones? Is the solution original or has an innovative approach?	
To what extent is the project <b>useful</b> to the users? And/or does the solution fulfill its purpose, and provide meaningful needs?

---

This task is to be done individually. You must write your answer *independently*.

To submit an assignment, log into [home.nyu.edu](https://home.nyu.edu), go to Academic -> NYU Classes -> Special Topic: Practical Computer Security -> Assignments, and upload your answer in PDF format. Make sure that you 'submit' the assignment before the deadline.

**Late homework will be marked down by 10% for every day of lateness.**
